

Pure is a deluxe griddle with a curve that will guide excess juices and fat to the removable drip tray. The curve also works to keep all foods perfectly in contact with the integrated 2500 Watt heating element. Pure's generous dimensions of 50 x 25cm offers enough space for up to six users. The adjustable thermostat, which is accurate up to 215°C, has settings for fast grilling, as well as keeping foods warm, and sizzling.

The grill's trendy and deluxe design includes a neatly finished bamboo base and its superior, state-of-the-art ceramic coating offers versatile advantages, such as:

High temperature conductivity, giving quicker and more even results that also preserve food's natural juices.

Ceramic is a natural inorganic substance that is better for your health. Additionally, when the grill has reached the end of its life cycle and is to be disposed of, ceramic displays certain environmental benefits.

Moreover, it does not chip or flake during the grill's life cycle.

Ceramic is extremely hard; it is scratch resistant and very easy to clean.

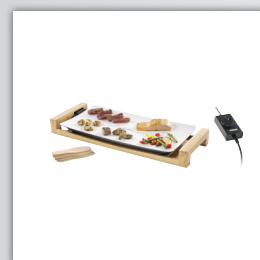

Ceramic has a fine molecular structure and displays superior non-stick properties.

WHAT'S A HOME WITHOUT A PRINCESS?
