

Electronic filter coffee machine with integrated coffee grinder and fully digital controls. Fresh coffee whenever you want it! The grind of the beans and the strength of the coffee can be adjusted to taste. Comes complete with a high-quality conical grinder, which can hold 250g of beans. The ground coffee is automatically placed in the coffee filter. The grinder can also be disabled so that any extra-fine grind, such as decaffeinated coffee, can also be used. This coffee machine has a capacity of 1.25 litres and is suitable for making up to 10 to 12 cups. It features an anti-drip mechanism, hotplate, 24-hour timer and automatic shut-down function. Fully electronic LCD controls.
